

COLONIA TREUHAND MANAGEMENT INC.  
PROPERTY MANAGEMENT THROUGHOUT ONTARIO

June 24, 2014

To whom it may concern,

Colonia Treuhand Management Inc. has been working with PL Energy for several years on many energy reduction projects and strategies. PL Energy has been proficient in all of their services including commercial grade energy audits and analysis, accurate measurement and verification of energy reduction projects, all the time ensuring that rebates are applied for in a timely manner while making sure to receive the highest rebates and incentives possible for all of our projects.

PL Energy's investment grade energy audits of our portfolio have allowed us to make the correct high level long term decisions as to which capital investment projects to focus on. Their energy analysis and reduction plan has helped us answer which projects to prioritize and how to implement them in the most efficient manner.

We have been very pleased with the diligence, responsiveness and professional service that we have been receiving from PL Energy and would highly recommend them to anyone looking to reduce their energy consumption and maintenance costs.

Yours truly,

**Colonia Treuhand Management Inc.**
