

PL Energy Services
2600 John Street, Unit 190
Markham, Ontario
April 4th 2018

Letter of Recommendation

To whom it may concern,

One Park Tower (PCC 834) has retained PL Energy Services since 2016 to provide engineering & equipment retrofits. Services to date have included:

- ASHRAE II Energy Audit
- Rebate Applications (Gas & Hydro)
- Condensing Boiler Installation

PL Energy Services has developed plans and delivered on: capitalizing on energy reduction solutions, maximizing available rebates, and installing building equipment as an all-in-one package. We recommend the services mentioned to anyone looking at working with PL Energy Services in the future.

Yours truly,

A handwritten signature in cursive script that reads 'SMcKenna'.

Sonya McKenna, R.C.M.
Property Manager
PSCC 834
One Park Tower
