

July 3, 2013

To whom it may concern:

PL Consulting performed Energy Audits for PCC 256, they provided us with a detailed report indicating each area of the building where we could save energy dollars. The report included details of our current usage and the potential savings including the total cost of each project, the ROI.

The results of these audits proved valuable when assessing where to direct Capital investments within the property.

The majority of projects were undertaken, as of March 31, 2013 we have savings of \$6,600.00 on actual hydro, we realized savings sooner than estimated. We were extremely pleased with the results of this process.

Regards

Ann Allen
