

July 13, 2015

To Whom It May Concern,

St Clair O'Connor Community is an intergenerational housing development for senior citizens. Our facility consists of 127 apartments, divided between retirement residences and nursing residents. Conserving energy where possible is of high importance to us, and our residence.

PL Consulting Corp. performed a Commercial Energy Audit in December 2014. The audit total was \$6,200.00, in which PL Consulting secured a rebate of 50% of the audit cost on our behalf. Resulting in us receiving a rebate incentive of \$3,142.50. The findings from the energy audit have uncovered a potential annual electrical and gas savings of over \$50,000, through energy conservation measures.

Through the use of the Social Housing Adder, PL Consulting also assisted in securing \$24,000 in rebates for lighting retrofit that yielded dramatic energy reductions.

We are extremely satisfied with the services PL has provided to us, in a timely and pleasant manner. The staff were always available to answer any inquiries and kept us informed of the progress of each project. We would definitely use their services in the future, and highly recommend them.

Sincerely,

John Battye

Manager Environmental Services

St. Clair O'Connor Community Inc
