To Whom It May Concern,

The Wexford Residence Inc. is a vibrant senior's residence in Scarborough that combines independent apartments and long-term care and a seniors' community centre.

PL Consulting Corp. performed a Commercial Energy Audit in July 2013. The audit total was \$7,800.00, in which PL Consulting secured a rebate of 50% of the audit cost on our behalf. This resulted in us receiving a rebate incentive of \$3,900.00. The findings from the energy audit have uncovered a potential annual electrical savings of over \$58,000, through energy conservation measures.

Through the use of the Social Housing Adder, PL Consulting also assisted in securing \$8,000 in rebates for the lighting retrofit that yielded dramatic energy reductions.

The staff at PL Consulting Corp. were very knowledgeable, and professional. We highly recommend them for anyone looking for energy audit solutions or looking to reduce their buildings consumption.

Sincerely,

Sandy Bassett
Executive Director & CEO
